# POLYTRONICS TECHNOLOGY CORP. AND SUBSIDIARIES CONSOLIDATED FINANCIAL STATEMENTS AND INDEPENDENT AUDITORS' REVIEW REPORT NINE MONTHS ENDED SEPTEMBER 30, 2022 AND 2021

For the convenience of readers and for information purpose only, the auditors' report and the accompanying consolidated financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and consolidated financial statements shall prevail.

#### INDEPENDENT AUDITORS' REVIEW REPORT TRANSLATED FROM CHINESE

#### PWCR 22001922

To the Board of Directors and Shareholders of Polytronics Technology Crop.

#### Introduction

We have reviewed the accompanying consolidated balance sheets of Polytronics Technology Crop. and subsidiaries (the "Group") as of September 30, 2022 and 2021, and the related consolidated statements of comprehensive income for the three months and nine months then ended, as well as the consolidated statements of changes in equity and of cash flows for the nine months then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies. Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and International Accounting Standard 34, "Interim financial reporting" as endorsed by the Financial Supervisory Commission. Our responsibility is to express a conclusion on these consolidated financial statements based on our reviews.

#### Scope of our review

We conducted our reviews in accordance with the Statement of Auditing Standards No. 65 "Review of Financial Information Performed by the Independent Auditor of the Entity". A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Conclusion

Based on our reviews, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Group as at September 30, 2022 and 2021, and of its consolidated financial performance for the three months and nine months then ended and its consolidated cash flows for the nine months then ended in accordance with "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and International Accounting Standard 34, "Interim Financial Reporting" as endorsed by the Financial Supervisory Commission.

Hsieh, Chih-Cheng Lin, Yu-Kuan For and on Behalf of PricewaterhouseCoopers, Taiwan November 9, 2022

The accompanying consolidated financial statements are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles generally accepted in countries and jurisdictions other than the Republic of China. The standards, procedures and practices in the Republic of China governing the audit of such financial statements may differ from those generally accepted in countries and jurisdictions other than the Republic of China. Accordingly, the accompanying consolidated financial statements and independent auditors' report are not intended for use by those who are not informed about the accounting principles or auditing standards generally accepted in the Republic of China, and their applications in practice.

As the financial statements are the responsibility of the management, PricewaterhouseCoopers, Taiwan cannot accept any liability for the use of, or reliance on, the English translation or for any errors or misunderstandings that may derive from the translation.

#### (4) Employee benefits

Defined benefit plans

Pension cost for the interim period is calculated on a year-to-date basis by using the actuarially determined pension cost rate at the end of the prior financial year, adjusted for significant market fluctuations since that time and for significant curtailments, settlements, or other significant one-off events. Additionally, the related information is disclosed accordingly.

#### (5) Income tax

The interim period income tax expense is recognised based on the estimated average annual effective income tax rate expected for the full financial year applied to the pretax income of the interim period, and the related information is disclosed accordingly.

The above ageing analysis was based on past due date.

B. As of September 30, 2022, December 31, 2021 and September 30, 2021, accounts receivable and notes receivable were all from contracts with customers. As of January 1, 2021, the balance of receivables from contracts with customers amounted to \$579,753.

- C. As at September 30, 2022, December 31, 2021 and September 30, 2021, without taking into account any collaterals held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the Group's notes receivable were \$204,078, \$208,135 and \$221,056, respectively, and accounts receivable were \$553,285, \$590,546 and \$774,434, respectively.
- D. Information relating to credit risk of accounts receivable and notes receivable is provided in Note 12(2).

#### (5) Leasing arrangements – lessee

A. The Group leases various assets including land, buildings and business vehicles. Lease agreements are typically made for periods of 2 to 50 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose covenants, but leased assets may not be used as security for borrowing purposes.

B. The carrying amount of right-of-use assets and the depreciation charge are as follows: 1

- E. For the nine months ended September 30, 2022 and 2021, the Group's total cash outflow for leases were \$9,539 and \$9,880, respectively.
- F. Extension and termination options

In determining the lease term, the Group takes into consideration all facts and circumstances that create an economic incentive to exercise an extension option or not to exercise a termination option. The assessment of lease period is reviewed if a significant event occurs which affects the assessment.

#### (6) <u>Leasing arrangements – lessor</u>

- A. The Group leases buildings to others. Lease agreements are typically made for periods of 1 to 5 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. To protect the lessor's ownership rights on the leased assets, leased assets may not be used as security for borrowing purposes, or a residual value guarantee was required.
- B. For the three months and nine months ended September 30, 2022 and 2021, the Group recognised rent income in the amounts of \$12,412, \$11,492, \$39,122 and \$40,490, respectively, based on the operating lease agreement, which does not include variable lease payments.
- C. The maturity analysis of the lease payments collectible under the operating leases is as follows:

- (e) Payback date and method: Except for converting into common shares during conversion period or repurchased and retired by the Company in advance, the bonds will be repaid at once in cash at face value on maturity date.
- (f) Conversion period: From three months after the issuance date (April 19, 2021) and ending on the maturity date (January 18, 2024), the creditor may request conversion at any time, except during the legal suspension of the transfer period.
- (g) Conversion price and adjustment: The conversion price was \$107 (in dollars) per share at issuance. However, if the ex-rights and ex-dividends occur after the issuance, the applicable conversion price was subject to adjustments based on the conversion price adjustment formula.
- (h) The rights and obligations of the new shares after conversion are the same as those of the Company's ordinary shares.
- (i) Under the terms of the bonds, all bonds redeemed (including bonds repurchased from the Taipei Exchange), matured and converted are retired and not to be re-issued; all rights and obligations attached to the bonds are also extinguished.
- (j) Regarding the issuance of convertible bonds, the equity conversion options amounting to \$16,374 were separated from the liability component and were recognised in "Capital surplus – share options" in accordance with IAS 32. The effective interest rates of the bonds payable after such separation ranged 1.5989%.

(k) Through September 30, 2022, the convertible corporate bonds with face value of \$95,300 have been converted into 944 thousand ordinary shares.

#### (12) Pensions

- A.(a) The Company and its domestic subsidiaries have a defined benefit pension plan in accordance with the Labor Standards Act, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Labor Standards Act. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company and its domestic subsidiaries contribute monthly an amount equal to 2.5% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company and its domestic subsidiaries would assess the balance in the aforementioned labor pension reserve account by December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Company and its domestic subsidiaries will make contributions for the deficit by next March.
  - (b) For the aforementioned pension plan, the Group recognised pension costs of \$380, \$367, \$1,140 and \$1,099 for the three months and nine months ended September 30, 2022 and 2021, respectively.
  - (c) Expected contributions to the defined benefit pension plans of the Group for next year amount to \$3,503.
- B. (a) Effective July 1, 2005, the Company and its domestic subsidiaries have established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company and its domestic subsidiaries contribute monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.
  - (b) The Company's Mainland China subsidiary, Polystar Electronics Co., Ltd., has a defined contribution plan. Monthly contributions to an independent fund administered by the government in accordance with the pension regulations in the People's Republic of China (PRC) are based on a certain percentage of employees' monthly salaries and wages. Other than the monthly contributions, the Group has no further obligations.

- (c) The Group's US subsidiary has established a 401(K) pension plan in accordance with Section 401(K) of the Internal Revenue Code (IRC). All eligible employees can elect to have a certain portion of their salaries contributed to their individual pension accounts according to the contribution limit. The US subsidiary makes a matching contribution of no higher than 8% of each employee's salary to their individual pension accounts.
- (d)The pension costs under the defined contribution pension plans of the Group for the three months and nine months ended September 30, 2022 and 2021, were \$9,994, \$9,287, \$30,231 and \$18,824, respectively.

#### (13) Share capital

As of September 30, 2022, the Company's authorised capital was \$1,000,000, consisting of 100,000 thousand shares of ordinary share (including 5 million shares reserved for employee stock options), and the paid-in capital was \$856,453 with a par value of \$10 (in dollars) per share. All proceeds from shares issued have been collected.

Movements in the number of the Company's ordinary shares outstanding are as follows (in thousands of shares):

|                                 | 2022   | 2021   |
|---------------------------------|--------|--------|
| At January 1                    | 85,646 | 80,002 |
| Cash capital increase           | -      | 4,700  |
| Conversion of convertible bonds |        | 944    |
| At September 30                 | 85,646 | 85,646 |

On November 11, 2020, the Company's Board of Directors approved to increase its capital in cash by issuing 4,700 thousand new shares, except for 10% reserved for employees in accordance with laws and 10% contributed for public offering in accordance with the Securities and Exchange Act. The remainings were subscribed by the original shareholders according to their shareholding ratio specified in the shareholder register at the effective date for the capital increase which was set on February 2, 2021.

#### (14) Capital surplus

Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Act requires that the amount of capital surplus to be capitalised mentioned above should not exceed 10% of the paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

### (15) <u>Retained earnings</u>

A. Under the Company's Articles of Incorporation, the current year's earnings, if any, shall first be used to pay all taxes and offset prior years' operating losses and then 10% of the remaining amount shall be set aside as legal reserve, except as legal reserve reaches amount equal to the paid-in capital, then setting aside or reversing special reserve according to the resolution of shareholders during their meeting or the request by competent authorities. Appropriation of remainder, and unappropriated retained earnings from prior years, shall be proposed by the Board of Directors and resolved by the shareholders' meeting.

In accordance with Company Act Article 240, Item 5 and Article 241, Item 2, the resolution, for all or a portion of distributable dividends, legal reserve and capital surplus that are distributed in the form of cash, will be adopted by a majority vote at a meeting of the Board of Directors attended by two-thirds of the total number of directors, and will be reported to the shareholders, shall not be subject to the resolution at the shareholders' meeting.

- B. Dividend policy: As the Company is in a rapidly changing industry and in the growth stage, and considering the Company's long-term financial plans, shareholders' long-term interest and stabilising performance target, cash dividend distribution shall not be lower than 10% of the total dividend distribution.
- C. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.
- D. (a) In accordance with the regulations, the Company shall set aside special reserve based on debit balances of other equity items at the balance sheet date before distributing earnings. When debit balances of other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.
  - (b) The amounts previously set aside by the Company as special reserve on initial application of IFRSs in accordance with Jin-Guan-Zheng-Fa-Zi Letter No. 1010012865, dated April 6, 2012, shall be reversed proportionately when the relevant assets are used, disposed of or reclassified subsequently.

#### (26) **Business combinations**

A. For the purpose of escalating the technology, improving product portfolio and expanding the scale of revenue, on July 8, 2020, the Board of Directors of the Company resolved to acquire the TCLAD segment assets and businesses from Henkel US Operations Corporation and plans to continue operating the business, through TCLAD Technology Corporation and TCLAD Inc. The above purchase agreement was approved by the CFIUS on February 12, 2021, and was executed on May 1, 2021.

B. The following table summarises the consideration paid for TCLAD businesses and the fair values of the assets acquired at the acquisition date:

|  | Ma        | ay 1, 2021 |
|--|-----------|------------|
| Purchase consideration   |           |            |
| Cash paid  | \$        | 584,985    |
| Fair value of the identifiable assets acquired and liabilities assumed |           |            |
| Inventories  |           | 41,966     |
| Property, plant and equipment  |           | 358,484    |
| Intangible assets  |           | 174,951    |
| Total identifiable net assets  |           | 575,401    |
| Goodwill   | <u>\$</u> | 9,584      |

C. The fair value of the identifiable net assets acquired as of May 1, 2021 was originally assessed at a provisional amount and the fair value of these net assets was determined after the end of the measurement period as described above.

(1) Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital, issue new shares or dispose assets to reduce its liabilities.

- B. Financial risk management policies
  - (a) The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. To minimise any adverse effects on the financial performance of the Group, derivative financial instruments, such as foreign exchange forward contracts and foreign currency option contracts are used to hedge certain exchange rate risk, and interest rate swaps are used to fix variable future cash flows. Derivatives are used exclusively for hedging purposes and not as trading or speculative instruments.
  - (b) Risk management is carried out by a central treasury department (Group treasury) under policies approved by the Board of Directors. Group treasury identifies, evaluates and hedges financial risks in close cooperation with the Group's operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas and matters, such as foreign exchange risk, interest rate risk, and credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

  - (a) Market risk

Foreign exchange risk

- i. The Group operates internationally and is exposed to foreign exchange risk arising from the transactions of the Company and its subsidiaries using various functional currencies, primarily with respect to the USD and RMB. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities.
- ii. Management has set up a policies to require group companies to manage their foreign exchange risk against their functional currencies. The companies are required to hedge their entire foreign exchange risk exposure through coordination with the Group treasury. Exchange rate risk is measured through a forecast of highly probable USD and RMB expenditures. Foreign exchange forward contracts are adopted to minimise the volatility of the exchange rate affecting cost of forecast inventory purchases.
- iii. The Group's businesses involve some non-functional currency operations (the Company's functional currency: NTD; other certain subsidiaries' functional currency: USD and RMB). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

Price risk

The Group's investments in equity securities, which are exposed to price risk, are the held financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income. To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Group.

- (b) Credit risk
  - i. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms, and the contract cash flows of debt instruments stated at amortised cost, at fair value through profit or loss and at fair value through other comprehensive income.
  - ii. According to the Group's credit policy, each local entity in the Group is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual credit limits are set based on internal or external ratings in accordance with limits set by the Board of Directors. The utilisation of credit limits is regularly monitored.
  - iii. The Group adopts the assumption under IFRS 9, that is, the default occurs when the contract payments are past due over 90 days.
  - iv. The Group adopts the following assumption under IFRS 9 to assess whether there has been

a significant increase in credit risk on that instrument since initial recognition:

If the contract payments were past due over 60 days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.

- v. If the credit rating grade of an investment target degrades two scales, there has been a significant increase in credit risk on that instrument since initial recognition.
- vi. The Group classifies customers' accounts receivable, contract assets and rents receivable in accordance with customer types. The Group applies the simplified approach using provision matrix to estimate expected credit loss under the provision matrix basis.
- vii. The following indicators are used to determine whether the credit impairment of debt instruments has occurred:
  - (i) It becomes probable that the issuer will enter into bankruptcy or other financial reorganisation due to financial difficulties;
  - (ii) The disappearance of an active market for that financial asset because of financial difficulties of the issuer;
  - (iii) Default or delinquency in interest or principal repayments;
  - (iv) Adverse changes in national or regional economic conditions that are expected to cause a default.
- viii. The Group used the forecastability to adjust historical and timely information to assess the default possibility of accounts receivable, contract assets and lease payments receivable. On September 30, 2022, December 31, 2021 and September 30, 2021, the provision matrix is as follows:

- (c) Liquidity risk
  - i. Cash flow forecasting is performed in the operating entities of the Group and aggregated by Group treasury. Group treasury monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn borrowing facilities. Such forecasting takes into consideration the Group's debt financing plans, covenant compliance, compliance with internal balance sheet ratio targets and, if applicable, external regulatory or legal requirements, for example, currency restrictions.
  - ii. The Group has the following undrawn borrowing facilities:

## (3) Fair value information

A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability.

- B. Financial instruments not measured at fair value
  - (a) Except for those listed in the table below, the carrying amounts of cash and cash equivalents, notes receivable, accounts receivable, other receivables, short-term borrowings, notes payable, accounts payable and other payables are approximate to their fair values.

- (b) The methods and assumptions of fair value estimate are as follows: Bonds payable: The fair value of the convertible bonds which were issued by the Group was estimated using Binomial-Tree approach.
- C. The methods and assumptions the Group used to measure fair value are as follows:
  - (a) The valuation of derivative financial instruments is based on valuation model widely accepted by market participants, such as present value techniques and option pricing models. Foreign exchange forward contracts are usually valued based on the current forward exchange rate.
  - (b) Under the "Regulations Governing the Preparation of Financial Reports by Securities Issuers", the Group makes self-assessment using the income approach to calculate the fair value of investment property. Related assumptions and information on inputs are as follows:

i. Cash flow: Cash flow shall be evaluated on the basis of existing lease contracts, rent at

local market rates, or current market rents for similar comparable properties in the same location and condition, and overvalued and undervalued comparable properties shall be excluded. If there is a period-end value, the discounted present period-end value may be added.

- ii. Analysis period: When there is no specified period for the income, the analysis period in principle shall not be longer than 10 years; when there is a specified period for the income, the income shall be estimated for the remainder of the specified period.
- iii.Discount rate: The discount rate shall be determined using the risk premium approach only, with the calculation based on a certain interest rate, plus the estimate for the individual characteristics of the investment property. The phrase "certain interest rate" means the interest rate may not be lower than the floating interest rate on a 2-year time deposit of a small amount, as posted by the Chunghwa Post Co. Ltd., plus 0.75 percentage points.
- (c) The output of valuation model is an estimated value and the valuation technique may not be able to capture all relevant factors of the Group's financial and non-financial instruments. Therefore, the estimated value derived using valuation model is adjusted accordingly with additional inputs, for example, model risk or liquidity risk and etc. In accordance with the Group's management policies and relevant control procedures relating to the valuation models used for fair value measurement, management believes adjustment to valuation is necessary in order to reasonably represent the fair value of financial and non-financial instruments at the consolidated balance sheet. The inputs and pricing information used during valuation are carefully assessed and adjusted based on current market conditions.
- (d) The Group takes into account adjustments for credit risks to measure the fair value of financial and non-financial instruments to reflect credit risk of the counterparty and the Group's credit quality.
- D. For the nine months ended September 30, 2022 and 2021, there was no transfer between Level 1 and Level 2.
- (4) Others
  - A. Due to the impact of COVID-19, the Company's significant subsidiary, Polystar Electronics Co., Ltd. which is located in Kunshan City, China, suspended its production lines for the period from April 2, 2022 to late April 2022 in line with the local governmental regulations. However, the subsidiary resumed its production on April 29, 2022 after receiving the approval from the local government and gradually restored its production capacity and operations. After assessment on the Group's operation and financial information, the Group's ability to continue as a going concern, assets impairment and financing risk and operations were not significantly affected.
  - B. On February 12, 2022, the Company was informed that an employee had been contracted with COVID-19. The Company cooperated with the Public Health Bureau to conduct contact tracing and COVID-19 testing. The Company had suspended all production for cleaning and disinfection

since that morning and resumed production on February 15, 2022. Based on the Company's assessment, the above incident has no significant impact on the Company's operations.

Note 1: The numbers filled in for the transaction company in respect of inter-company transactions are as follows:

(1) Parent company is '0'.

(2) The subsidiaries are numbered in order starting from '1'.

Note 2: Relationship between transaction company and counterparty is classified into the following six categories; fill in the number of category each case belongs to (If transactions between parent company and subsidiaries or between subsidiaries refer to the same transaction, it is not required to disclose twice. For example, if the parent company has already disclosed its transaction with a subsidiary, then the subsidiary is not required to disclose the transaction; for transactions between two subsidiaries has disclosed the transaction, then the other is not required to disclose the transaction.):

(1) Parent company to subsidiary.

(2) Subsidiary to parent company.

(3) Subsidiary to subsidiary.

Note 3: Regarding percentage of transaction amount to consolidated total operating revenues or total assets, it is computed based on period-end balance of transaction to consolidated total assets for balance sheet accounts and based on accumulated transaction amount for the period to consolidated total operating revenues for income statement accounts.
