SMFF5040 Series Surface Mount Fuses Devices

SMFF5040 Series Surface Mount Fuses Devices

Description

Polytronics SMFF5040 series surface mount fuse is in a compact miniature rectangular shape, offering up to 150A/125V rating with high interrupt up to 5000A (100V) to meet various applications. The fusing element and the terminals are integrally stamped and formed for upmost reliability. Thermosetting adhesive filling design ensures that the product is completely lead-free to meets RoHS and REACH requirements. Finally, the product is AEC-Q200 compliant and is suitable for automotive applications.

Features

- Fast Acting
- Compact rectangular size
- Enhanced thermal cycling endurance
- Ceramic body design
- Excellent environmental integrity
- AEC-Q200 compliant

Application

- AI, blade, and edge servers
- High-end power supplies
- Power Distribution Units
- Industrial power tools
- Battery Management System
- Energy Storage System
- Cooling fan system
- Voltage regulator module

Storage

- The ambient temperature recommended for storage shall be between 5°C ~30°C.
- The relative humidity recommended for storage shall be between 25%RH~60%RH.
- Sealed plastic bags with desiccant shall be used to reduce the oxidation of the termination and shall only be opened prior to use.
- The products shall not be stored in areas where harmful gases containing sulfur or chlorine are present.

Warning

- Fuse product is not recommended for any type of coating. Polytronics is not responsible for any damage directly or indirectly related to the coating.
- For copper layer thickness or copper trace width different from the standard test board, fusing characteristics needs to be verified to ensure product performance meet user requirement.
